## New RAINF MLW 2-9-2 AL10 Set

MLW 2-9-2 AL10 was released late on 12 Aug 2009, and this was followed by an amending sig (SIC BAY 102131Z DEC 09), so we can now offer a full AL10 set of templates as per the attached order form.

The new AL10 set sees many of the older AL9 templates unchanged but renumbered in the new Annex A to Chapter 3. The attached order form shows the old numbering system so that you can work out what you have and what you need to update your set.

If your AL9 set was up to date with both amending signals then you will find that some of your AL9 sheets are numbered as AL9S1-xx and AL9S2-xx. If this is not the case then you should check the attached to identify what updates you required to be current. If you were up to date, then you may still need the following new or amended templates:

- **Change AL10-12/19**—66 mm M72A6 & 21 mm M72A6S Sub Cal. (Please note that **AL9S2-10/14** (66 mm M72A6) is now **UNSAFE**)
- **New AL10-14/17/18**—40 mm M79/M203/GA Sound & Flash, M1006 & M1029.
- **Change AL10-15a/b**—40 mm GMG HE & M918. (This change is to simplify plotting Ground and Hard Targets)
- **New AL10-24**—84 mm 469B Smoke.
- **New AL10-25f to AL10-25i**—81 mm M800 series ammunition.

As always please see our web page which remains the most current listing of all of our products.

## New AAVN Door Gun Templates

New templates conforming to Special Flying Instruction 05-08 have now been produced in 1:25,000, 1:50,000 and 1:100,000 map scales for both stages 1 to 3 and 4 to 7. These templates are available for inspection and order at our web site:

MILITARY TEMPLATE TECHNOLOGY PTY. LTD.

# Product Update - FEB 2010

## Naming Convention

MTT PL has implemented a naming convention for its MLW 2-9-2 based on the serial numbers for templates in Annex A to Chapter 3 as follows:

- AL10-xx—Templates based on MLW 2-9-2 AL10 including SIC BAY 102131Z DEC 09 where xx = serial number in Annex A to Chapter 3.

# Other MTT Products

Don't forget that we also supply our Warfighting Symbology Stencil (shown right), as well as a wide range of protractors and graphic drawing tools with military applications.

We are also happy to produce products to meet your requests, and our recent custom products have included:

1. Our Arabic Protractor for the US Army trainers at MNSTC-I training the Iraqi Army,
2. Our ANA6000 for the MRTF OMLT trainers working with the ANA in Afghanistan.
3. Sri Lanka Army 6IN Protractor for tender to the Sri Lanka Army.
4. TOCG templates for Australian Grade 2/3 trainees.

So if you don't see what you want on our web page, then contact us with your ideas, and your idea may be the next product we design.
